CAREER SUMMARY

An Architect with a Bachelor of Architectural Studies, I am motivated to create innovative, context-sensitive, and environmentally responsible spaces that respond to both human and ecological needs. I combine my ability to combine creative problem-solving from concept development to detailed documentation with technical expertise. With a detail-oriented approach, intentionality, and inclusivity, I craft spaces that invite belonging, connection, and meaningful interaction with users. I aspire to grow within a collaborative environment that embodies functionality, aesthetics, and sustainability, acquiring more skills and knowledge in the field.

RELATED SKILLS

- Proficiency in BIM /Autodesk Revit.  87 %
- ArchiCAD & AutoCAD for drafting.  75 %
- Adobe Photoshop / Illustrator /InDesign  90 %
- Lumion& Enscape in realistic rendering.  72 %
- Rhino / Parametric design.  66 %
- Microsoft Office Suite.  88 %
- MS Project.  71 %

EDUCATION

Bachelor of Architectural Studies, Sep 2018 - Dec 2023
The Technical University of Kenya | Nairobi, Kenya
Awarded First-class honors.

Secondary School Education Jan 2013- Nov 2017
Chinga Girls High School | Nyeri, Kenya
Scored A-

PROFESSIONAL EXPERIENCE

Architectural Technician January 2024-August 2024
Strongest Constructor | Nairobi, Kenya

As an Architectural Intern at Strong Constructor, I did design development and post-production of residential and commercial projects. My role involves preparing architectural drawings, conducting site visits, and coordinating with engineers and contractors to ensure accurate design execution and construction quality.

- Achieved a 20% reduction in artificial lighting needs and enhanced natural ventilation by integrating a sustainable perforated metal facade system in the design, development, and construction of a mixed-use residential and commercial complex in Westlands.
- Produced 3D models and Lumion renderings for client presentations, enhancing visualisation and design communication.
- Conducted site inspections to ensure adherence to design specifications and quality standards.

DORIS NG'ANG'A

- Prepared site reports and presented them to both the architect and project manager.
- Conducted a sustainability research on how to integrate environmentally friendly design strategies in commercial developments in a tropical climate.

Architectural intern

February 2022- April 2022

Directorate of Public Works, Kiambu County | Kiambu, Kenya

As an Architectural Intern at the Directorate of Public Works, Kiambu County, I did the design, documentation, and supervision of public infrastructure projects such as schools and health centers. Under the supervision of a senior architect, I was involved in the following;

- Designed Limuru Girls' High School extra classes from conceptualization, drafting, design development, documentation, and supervising its construction to completion.
- For 3 primary schools, I prepared architectural drawings, site layouts, and construction details.
- Prepared Bill of Quantities (BoQs) drafts and project schedules in coordination with quantity surveyors and engineers.
- Did site inspections to monitor ongoing construction works, ensuring compliance with approved designs and safety standards.

VOLUNTEER WORK

Architectural draftsman volunteer

2023- Present

Dreams plan and Services | Thika, Kenya

Drafted 20 hand-drawn sketches of residential, commercial, and institutional designs into ArchiCAD drawings.

- This involved transferring hand sketch designs into ArchiCAD drawings, detailing, and post-production of the drawings as well

Design competitor

March 2025– July 2025

Public Space Network | Nairobi, Kenya

Awarded a first runner-up in the design of the Kilimani ring road competition. The project was to address urban design challenges, promote sustainability, and encourage community interaction through the lens of the public space.

- As a team of 4, we were able to come up with a design proposal that helped make the road an adaptive, connecting, and reconnecting public space driven by the motto of bringing the streets to the people by bringing people to the street.

Design Competitor

Date – Date or Present

Architecture Association of Kenya (AAK) | City, State/Country

- Awarded one out of three honourable mentions for the project.

I volunteered as a competitor for AAK TUM BUILD HUB, which involved envisioning a sustainable, innovative, and co-working space at the Technical University of Mombasa that reflects the use of eco-friendly materials, energy-efficient systems, and resource-conscious design.
